

University of Art Braunschweig (HBK)

The University of Art Braunschweig (HBK Braunschweig) is an internationally orientated university specialising in the arts with the right to confer doctoral and *Habilitation* (professorial) degrees. With around 1,000 students enrolled on degree courses which include Fine Art, Art Education, Design, Art History and Aesthetics, and Media Studies, the HBK Braunschweig is one of the biggest universities of the arts in Germany. Our state-of-the-art workshops and laboratories offer optimal conditions for thinking and learning, working and artistic practice.

Workshops and laboratories

All HBK Braunschweig students have access to a 5,000 m² complex of workshops and laboratories where they can learn and practise both innovative and traditional skills. These include woodwork, metalwork, paper-based crafts, ceramics, sculpture, model-building, typography, layout and various printing techniques. We also offer a photographic studio and laboratories for analogue and digital photography plus facilities for film and video technology, sound art, computer animation and computer-aided design (CAD). Students are supported by highly qualified, specialised workshop leaders.

Events organised by teaching staff and students

The HBK's own gallery, the Assembly Hall (*Montagehalle*) and other spaces in and around the HBK Braunschweig offer a changing programme of exhibitions and events. Many events take place in collaboration with HBK Braunschweig students and are based on student projects.

The HBK Braunschweig is a space where students, staff and visitors can experience the freedom to think outside of conventional norms, exploring new areas of activity and developing their personalities at their own pace according to their individual abilities.

(State of Lower Saxony)

801.616 EUR third party funding

28.000 EUR income from university fees/

long-term study fees

869.000 EUR other income

Braunschweig

Braunschweig, with a population of roughly 250,000, is the largest city between Hanover and Berlin. Historically it has been the central hub of the region, as it is today. Its long history, the wide-ranging cultural scene and the extremely diverse research and academic landscape make Braunschweig a stimulating place for artistic and academic pursuits. Lots of green spaces and short distances between locations mean that it is easy to get around between different areas, especially by bicycle.
